Lydia,
FYI.

Amy,
Lydia's initial idea was to have this information on CDs that would be included with each general notice letters. However, this is the new FOIA procedure.
Tell Dave he needs to submit his online FOIA request for "redacted copies of all documents that EPA has obtained from CES Environmental Service" via the following web site:

<https://foiaonline.regulations.gov/foia/action/public/search>

Last week Dwayne Patrick told me the first party requesting this information will do so via an online FOIA request. Thereafter, when this FOIA released information is put online, future parties requesting the same information will be able to go online to find all previously FOIA released information.

Last week I'd talked to Lydia about this new FOIA program and she is OK with it.

I spoke to Lubrizol's attorney, David Bates, yesterday about CES and the business records we have. His associate, Jonathan Bull, called to request the releaseable CDs. I left him a voicemail saying to request the CDs and the send the email to me and you. Please treat that as a FOIA and send to the appropriate parties to start generating a response since I will be out of the office all next week. I suggested he tailor the request to only those CDs to ensure a timely response.

Amy
